Pricing & Credits Guide

Premium plans, credits & reseller pricing

How the credit system works

Everything at Gold Club IPTV runs on **credits**. One credit is the basic unit of value, equal to **\$3.50** (the price of one month of service for one connection). You buy credits in advance, then spend them to activate any plan for your customers. Bigger plans simply cost more credits.

About connections: a “connection” is one device/stream that can watch at the same time. We offer plans for **2, 4 and 6 connections**. More connections = more credits, because the customer can stream on more devices at once. That is why a 6-connection plan costs more than a 2-connection plan of the same length — it does more.

To activate a plan, you spend the credits shown below. Example: 12-month / 6-connection = 24 credits.

1. Customer plans & credit cost

Retail price is what your customer pays. Credits is what you spend to activate each plan.

Duration	2 connections	4 connections	6 connections
1 month	\$6 (2 cr)	\$10 (3 cr)	\$13 (4 cr)
3 months	\$14 (4 cr)	\$24 (7 cr)	\$32 (9 cr)
6 months	\$23 (7 cr)	\$40 (11 cr)	\$54 (15 cr)
12 months	\$36 (10 cr)	\$64 (18 cr)	\$85 (24 cr)

The 6-connection column is highlighted — our most popular best-value plans.

2. Buying credits — bulk packs

Buy credits in advance. The more you buy, the less each credit costs. “You save” compares against the standard rate of \$3.50 per credit.

Pack	Credits	Price / credit	Total price	You save
Starter bulk	100	\$2.30	\$230	\$120 (34%)
Pro	300	\$2.10	\$630	\$420 (40%)
Premium	500	\$1.95	\$975	\$775 (44%)
Master reseller	1000	\$1.75	\$1,750	\$1,750 (50%)

3. Your real cost per plan (by pack tier)

Pick the plan you want to sell, then read across to the pack you bought — that cell is what the plan actually costs you in dollars. Compare it to the retail price to see your profit.

Plan	Cr	Retail	100 pack (\$2.30/cr)	300 pack (\$2.10/cr)	500 pack (\$1.95/cr)	1000 pack (\$1.75/cr)
2 conn plans						
1 month	2	\$6	\$4.60	\$4.20	\$3.90	\$3.50
3 months	4	\$14	\$9.20	\$8.40	\$7.80	\$7.00
6 months	7	\$23	\$16.10	\$14.70	\$13.65	\$12.25
12 months	10	\$36	\$23.00	\$21.00	\$19.50	\$17.50
4 conn plans						
1 month	3	\$10	\$6.90	\$6.30	\$5.85	\$5.25
3 months	7	\$24	\$16.10	\$14.70	\$13.65	\$12.25
6 months	11	\$40	\$25.30	\$23.10	\$21.45	\$19.25
12 months	18	\$64	\$41.40	\$37.80	\$35.10	\$31.50
6 conn plans						
1 month	4	\$13	\$9.20	\$8.40	\$7.80	\$7.00
3 months	9	\$32	\$20.70	\$18.90	\$17.55	\$15.75
6 months	15	\$54	\$34.50	\$31.50	\$29.25	\$26.25
12 months	24	\$85	\$55.20	\$50.40	\$46.80	\$42.00

The 1000-pack column is highlighted — the cheapest rate (\$1.75/credit, 50% off).

Worked example (6 connections)

A reseller buys the **1000-credit Master pack** for \$1,750 (\$1.75 per credit) and sells a **12-month / 6-connection** plan:

Step	Detail
Credits needed	24 credits
Your cost	24 × \$1.75 = \$42.00
You sell to customer for	\$85.00 (retail)
Your profit	\$43.00 per line (≈ 100% markup)

Formula for any plan: plan credits × your pack's price-per-credit = your cost.

Gold Club IPTV — all prices in USD. Credits never expire and work on any plan or connection count.
